ecretary to the Commissioner of Civil Supplies.

To

W. SCOTT BROWN ESQ., C.S.I., C.I.E., I.C.S.,
Commissioner of Civil Supplies.

Read:- G.O.No.3729 Development. dated 17-11-1943.

In their order quoted above the Government approved the proposal of the Board to introduce rationing on a statutory basis in Mangalore and Kasaragod.

2. The Provincial Controller of Food Rationing visited Mangalore on 15-11-1943 and inspected the belt area for Mangalore town. A copy of his notes of inspection is enclosed. The Board agrees with him that the villages referred to in his notes should be included as the belt area. A draft notification is submitted extending the Madras Rationing (Preparatory Measures) Order and the connected Orders to Mangalore Municipality and its suburban area.

3. As regards Kasaragod, the Controller of Rationing considers that rationing might be introduced in the eight important towns of Kasaragod taluk. The Collector has been asked to report whether he agrees with his recommendation and also to submit proposals fixing the belt area for each of these towns. On receipt of his reply a further report will be submitted.

4. Scale of rations: The Board agrees with the Controller that half a local seer "struck" may be taken as the ration for an adult per day in South Kanara district. This may be approved.

5. Staff: The Controller of Food Rationing considers and the Board agrees with him that very soon rationing may have to be introduced not only in Mangalore and the important towns of Kasaragod taluk but also in all the taluk headquarters of the district. The Board therefore considers that a full time gazetted officer will be required to be in charge of rationing work in this district. The Board considered the possibility of placing the Rationing Officer, Calicut (Mr. Kunni Ahmed) in charge of the rationing work in South Kanara also. But in view of the decision of the Government that rationing should be introduced in all the municipal towns in the Province the Rationing Officer Calicut will have to take steps to introduce rationing in Cochin and Palghat towns and he may not therefore be able to spare the time to introduce rationing in South Kanara District. The Board therefore recommends that a post in the Deputy Collector's scale be sanctioned for the purpose.

6. For the work in Mangalore town, a Tahsildar with two Deputy Tahsildars will be required. The Tahsildar will require one Upper Division clerk with emoluments and 10 lower grade clerks and 6 peons. Each of the Deputy Tahsildars will require one Upper Division Clerk and ten lower division clerks and 3 Checking Officer and 3 Enquiry Officers and 4 peons. Mangalore is an extensive place without proper conveyance facilities. Including the belt area the length of the town is about eight or ten miles. The Rationing Officer will have to visit the various parts of the town frequently to see that the work is being done properly. The

Board

The Board therefore considers that he should be given a special conveyance allowance of Rs.50/- per mensem. The Deputy Tahsildars may each be given a conveyance allowance of Rs.25/- per mensem.

Proposals will be submitted later regarding the staff required for the work at Kasaragod.

8. Ullal village.
9. Sandspit to the West of Mangalore Municipality up to the boundary of Tannirbhavi village

In his letter No.6592/43-3-A3(C.S.) dated 29-10-43 the Commissioner has recommended to Government that rationing on a statutory basis might be introduced in Mangalore and in some of the important towns of Kasaragod taluk, South Kanara District.

2. I had to go to Calicut last week to check the progress in the pre-rationing enquiries and I thought I would take advantage of the opportunity to visit Mangalore and study the preliminary arrangements necessary.

3. At Mangalore I found that there was a very keen demand for the very early introduction of rationing on a statutory basis not only in the towns, but also in the important towns in the deficit taluk of Kasaragod. Judging from the trend of prices of paddy, it looks as if there will be need very soon for the introduction of rationing in all the urban areas of the district.

4. In view of the keen demand of the people for the early introduction of rationing, I inspected, during my one day stay, most of the villages proposed for inclusion as the belt area of Mangalore Municipality. The Revenue Divisional Officer, Mangalore, the Commercial Tax Officer, Mangalore and the Tahsildar, Mangalore came with me during the inspection and we agreed that the following villages might be included as the belt area:-

Name of place.	Population according to 1941 census.
ngalore Municipalit	81,069
2. Portion of Bolur village, (outside the Municipal area of Mangalore).	
3. Portions of Derebail village outside the Municipal area of Mangalore.	
4. Maroli village.	
5. Portions of B.Kankanady and Alape villa up to the Padil signboard one furlong o either side of the Mangalore-Buntwal ro	
6. Portion of Kadri village outside the Municipal area of Mangalore.	
7. Portions of Padavu village outside the Municipal area of Mangalore excluding S.No.s.1-66, 74-94, 104, 115, 127, 150, 151, 152, 154, 155, 157, 159, 162, 165, 168, 169, 175, 176, 177, 185, 186, 191, 193, 198, 199, 200, 202, 203, 206, 208, 209, 210, 241, 245, 249, 250, 251, 252, 260, 261, 262, 263, 267, 270, 271, 275, 280, 281, 282, 284, 286, 287, 288, 289, and 290.	
8. Ullal village,	
9. Sandspit to the West of Mangalore municipality upto the boundary of Tannirbhavi village	

5. The Collector was keen that rationing should be introduced in the important towns of Kasaragod taluk also. His view is, and many of the leading officials whom I consulted also agree with him, that an appreciable quantity of paddy produced in South Kanara district ~~xxxxxxxxx~~ is being smuggled into Malabar district through the adjoining towns of Kasaragod taluk and that if that leakage is not stopped the prices in South Kanara might shoot up still further. I pointed out to them that the price of rice in Malabar was decidedly lower than that of rice in South Kanara. Their reply was that the supply of rice in Malabar district at controlled rates was inadequate and that people were supplementing their supplies by getting rice through the black market and that the price in the black market was affecting the price of rice in South Kanara. In view of these representations, I think rationing of rice might be introduced in the important towns of Kasaragod taluk. The Collector sent for the Tahsildar, Kasaragod and I had a discussion with him about the towns where rationing would be necessary. The Tahsildar, Kasaragod.

recommends that rationing might be introduced in the following towns of his taluk.

	Estimated Population.
1. Kasaragod.	18,000
2. Hosdrug.	10,000
3. Nileshwar.	10,000
4. Cheruvathur.	10,000
5. Padne.	10,000
6. Tirukalpoor.	10,000
7. Umla	10,000
8. Manjeswar.	10,000

The Collector of South Kanara may be requested to report whether he agrees with the recommendations of the Tahsildar, Kasaragod, and if so to send a draft notification for the introduction of rationing n these towns of Kasargod taluk in which he wants rationing, adding o each town any belt area that might be necessary. A draft is put up.

e of rations

Rice is sold in these parts not in heaped measures but in struck easures. Measured in this way, one local seer is 80 tolas and so alf a seer struck is 40 tolas which is just one lb. This is slightly ess than the Madras scale of 2½ ollocks of rice which is equal to 41 1/4 tolas. Half local seer struck may be taken as the ration for an adult per day in South Kanara district.

Supply.

In this district rice is reierred to in terms of Muras, one mura is being equal to 42 local seers. On a rough calculation I found that the town would require about 950 Muras a day. I asked the Collector whether he would be able to build up stocks for a month at this rate and whether he could ensure regular supplies from the production in his district. He told me he would be able to build up stocks for a month and also ensure steady supply. I requested him to proceed with the building up of stocks urgently. One advantage in this disgtrict is that rice is packed in straw bundles or Muras, and keeps for several months and therefore there is no risk of rice being spoiled by being stocked as rice for some months.

Numbering or premises.

Houses within the Municipality have numbers. The Revenue Divisional Officer told me that many of the houses even in the belt area had census numbers and that these could be utilised. I have requested him to arrange immediately for the numbering of the ~~non-~~ numbered houses in the belt area. He agreed to get it done soon.

merat

There are 54 staff wardens in the A.R.P. The A.R.P. Special Officer whom I met told me that all the 54 staff wardens could be employed in the enumeration work and that they were quite competent to do the work. The Municipal Commissioner told me that he had 12 bill collectors and that he would be willing to spare them. These two classes of people with some clerks from the Revenue Department could do the preliminary enumeration. The Municipal Revenue Inspectors and the senior clerks of the Revenue department and of other Government offices could be utilised to do the over check.

Staff.

rationing were introduced in Mangalore a few weeks after its introduction in Calicut, I had intended to suggest that the Rationing Officer, Calicut (Mr. Kunhy Ahmed) might be put in charge of rationing in South Kanara District also. If however, as seems necessary, rationing is to be introduced immediately in Mangalore and some towns of Kasargod taluk, it will be difficult for Mr. Kunhy Ahmed to spare the time to attend to this work in addition to his work in

his work in Malabar. It looks also as if very soon rationing may have to be introduced in all the important towns of South Kanara district. I therefore submit that a Rationing Officer of Gazetted rank will be necessary for South Kanara district.

If I may make a suggestion, Mr. Krishna Rao, Commercial Tax Officer, South Kanara may be selected as the Rationing Officer, South Kanara district. He is a native of the district and knows Kanarese language. He is an officer who takes keen interest in the work and knows the area well. Perhaps he may be suggested as the Rationing Officer for South Kanara district. (He was an Inspector of Excise prior to his appointment as Commercial Tax Officer.)

As far as Mangalore town is concerned the population of the area to be rationed works out roughly to 1,20,000. A Tahsildar with two Deputy Tahsildars will be necessary for the work. If the work is to be introduced urgehtly, Mr. S.K. Nayak who is now an Assistant Rationing Officer in Madras City and who belongs to South Kanara district may be appointed as the Rationing Officer, Mangalore. I have consulted Mr. Selvanayagam and he agrees to spare him. Mr. Nayak has been working as Assistant Rationing Officer in Madras City for the past 3½ months and knows the work quite well.

As soon as the orders of Government are received regarding the introduction of rationing in Mangalore town, proposals will be submitted to Government on the above lines with the necessary notifications.

Provincial Controller of Food Rationing.
